## ABOUT ME

Passionate Computer Science student with a strong foundation in programming and problem-solving. Skilled in Python, data structures, and database concepts, with hands-on experience in academic projects. Driven to continuously learn, build efficient solutions, and contribute meaningfully in a growth-oriented environment.

---

## PROJECTS

### Multiplayer UNO Game | Python Jan 2023 - Present

- Implemented cost-effective solutions, resulting in a 20% reduction in project expenses.
- Streamlined project workflows, enhancing overall efficiency by 25%.
- Led a team in successfully delivering a complex engineering project on time and within allocated budget.

### Speech-Based Gender & Age Classifier Mar 2025 - Dec 2025

- Built a machine learning model to classify gender and predict age from speech data.
- Performed audio preprocessing and feature extraction for improved accuracy.
- Evaluated model performance using standard evaluation metrics.

### Bank Management System | Python Feb 2024 - Jan 2025

- Created a console-based banking system supporting account creation, deposit, withdrawal, and balance inquiry.
  - Implemented file handling for secure data storage.
  - Applied object-oriented programming concepts.
- 

## EDUCATION

### Bachelor's of Technology July 2024- Present

Amrita Vishwa Vidyapeetham  
Specialization in Artificial intelligence and data science

### Intermediate June 2022-june 2024

Narayana college  

- Maths, physics, chemistry

---

## ADDITIONAL INFORMATION

- **Technical Skills:** web development, python, deep learning, Data structures
- **Languages:** English, Telugu, Hindi
- **Certifications:** Deep learning, python
- **Awards/Activities:** Playing cricket, studying story books
